Positions open:

- **VEGETABLE SEED GROWING**  
**Internship 2017**

### **March through November**

(option to stay into December to learn seed cleaning and testing)

Focal points of experience: Organic and Biodynamic farming on 500 plus acres. We are NOP organic and Demeter Biodynamic certified. We do intensive horticultural production on 4 acres with a focus on vegetable seed production integrated into a CSA/Market vegetable garden. Activities include field preparation, cultivation growing, harvesting, threshing, cleaning, and packing seed for sale, and selling vegetables at a local farmer's market. We have a raw milk dairy with intensive grazing for small herd of Ayrshire/Shorthorn cows. We do a weekly study together of various Biodynamic farm and garden literature, and we are especially interested in building agricultural communities.

- **Special DAIRY opportunity**

Work in our small fresh/raw micro milk dairy with our grass/pasture fed cows on our certified organic land.

- **2017 Autumn Seed Internship:**

**Three to Four month internship: September-December**

**Harvesting in September, cleaning and testing and learning about seed distribution throughout September-December. While you will learn much more of the context of seed if you come in the early spring, we offer the autumn internship for experienced farmers or gardeners.**

**COMMUNITY FARMING: WE ARE especially INTERESTED in working with COUPLES or groups of friends WHO WANT TO TRAIN long term in seed growing and also understand how important it is to farm in community with others!**

For questions or more information email or call at contact above.

Interested applicants please send short bio, resume, reasons for your interest and goals regarding agriculture to [bcorymb@gmail.com](mailto:bcorymb@gmail.com) and call to let us know that you have sent it. 308-631-5877.

#### **Farmers/Instructors:**

***Beth and Nathan Corymb***, biodynamic and organic farmers for over 30 years each trained in vegetable seed production and founders of Turtle Tree Biodynamic Seed Initiative.
